

SPONSORSHIP

UNDERSTANDING THE DIFFERENCES IN OVERSEAS

ENGINEERING PRACTICE

The Special Interest Group for Immigrant Engineers (SIGIE) are planning a one-day conference in Auckland in October 2022. The purpose of the conference is to:

- Enable immigrant engineers to practise their networking and communication skills. As part of the conference, immigrant engineers will have the opportunity to submit papers and present to the audience, to practise their verbal/presentation skills
- From an attendee perspective, it will increase their understanding of the differences of practising engineering in New Zealand compared to practising overseas

An optional dinner will take place the evening of the event, to continue networking. To reduce barriers of attending the event, the conference will be free of charge and open to all, the dinner will be an additional cost. We anticipate 150 - 250 attendees.

	Event Sponsors	Dinner sponsor
